Subject: Microsoft Settlement

Dear Sir,

I am sending this note to express my concern for the proposed antitrust settlement with 9 states and Microsoft,

The provisions of the agreement are tough, reasonable, fair to all parties involved, and go beyond the findings of Court of Appeals ruling. The settlement is good for consumer and the American economy. We need to move beyond this litigation. As a country we have more important thing to deal with like national security and America economy.

I urge you to settle this case with Microsoft which is the best interest for this country at this time.

Thank you for your attention.

Sincerely yours,
Stephanie Davis
